1100	900	140	1 Tonne	1.5 Tonne	5.70	4 way	HDPE	Black

Extremely lightweight nestable industrial pallet designed especially to save space when empty.

- It is not affected by damp and/or rain and the size and shape do not vary. Likewise, the weight remains constant throughout its life cycle.
- The composition of this product prevents microorganisms and parasite nests. Easy to clean and sterilise. No water-tight areas
- The fact that this is a 100% recyclable product lowers the impact on the environment.
- The dimensions allow for the reduction of transportation and storage costs by up to 43% in comparison with conventional pallets.
- This product is especially recommended for export items, as it avoids difficulties related to health certificates and unnecessary administrative procedures. It does not require any special treatments.
- Its reduced weight makes it a highly economical option, whilst offering outstanding benefits. It is particularly suitable for air freight or transport charged per kg.
